DALI Lighting Automation System

Project details

DALI Lighting Automation System

- ☐ 95 drivers for DALI Led lights
- ☐ Automatic regulation and keeping light intensity by the light sensors
- ☐ The light sensors control the lighting based on presence
- ☐ Turning ON the lighting according to preset values (in percents) and turning OFF from DALI buttons
- ☐ Lighting control
- ☐ Helvar 950 Router- DALI-2 Certified controller
- ☐ Helvar 950 Router- 4 x DALI subnets
- ☐ Support for 512 DALI devices (128 per subnet consisting of 64 + 63 DALI-2 Controls. Address 128 reserved for application Controller).
- ☐ Fast installation and reduced install cost.
- ☐ Easy maintenance

Duration
2023

Scope of activities

- ☐ Delivery and installation of Lighting controllers Helvar
- ☐ Start up and setup, user training and documentation

New System
energy efficiency
