

Risk Engineering Office Building

Building Management System

Building Management System

- 2200 Data Points
- Fire alarm system integration - 1000 Data Points
- Heating and cooling center,
- LON integration of individual room control (IRC)
- 9 AHU's – central control,
- Control and monitoring of parking ventilation and CO gas signaling system - 2 levels, lighting automation, decorative water wall, garage doors;
- M-bus integration of heat- cold meters;
- Outside blinds Modbus integration.

Project details

Duration

2012

Scope of activities

- Supply and installation of:
 - Field Equipment (sensors, valves,...)
 - DDC controllers and modules...,
 - BACS operation station,
- MCC panels design, production, installation, start up and documentation
- DDC & BACS software, start up & commissioning, end user training and documentation
